Desktop AI e Open-Source AI: resumo semanal — 13-04-2026

Publicado em 2026-04-13 10:18:05

BOX DE FACTOS

- **Desktop AI** continua a deslocar o centro da IA da cloud para a máquina pessoal.
- **Open-source AI** mantém um ritmo de inovação feroz.
- **Agentes e tool use** tornam o software mais operativo e menos passivo.
- **O computador pessoal** volta a ser um espaço de execução inteligente.

13-04-2026

> *A inteligência artificial já não vive apenas na nuvem. Cada semana a vemos regressar à secretária, ao terminal e ao sistema operativo.*

Esta semana confirmou-se a aceleração da Desktop AI, com mais ferramentas open-source, agentes locais e software de inteligência artificial a ganhar maturidade prática.

• Build a Sovereign Local AI Stack: Ollama and Open WebUI and Pgvector 2026 — Deploy a complete local AI stack — Ollama 5.x, Open WebUI, and pgvector — on Ubuntu 24.04. Zero cloud. Zero API costs. Full commands, tested output, sovereignty verified.https://vucense.com/dev-corner/build-sovereign-loc

• Looking for devs to help improve a local LLM app (already live on Play Store) — Hey, I've been working on a project that I think some of you might find interesting. It's basically a mobile app that lets you run local LLMs through Ollama / LM Studio, but with a clean native interface. The idea was si

• Unsloth accused a brand new team (ByteShape) of "literally cheating." I brought the receipts, and Unsloth moved the goalposts. — TL;DR: I shared a highly efficient new model
