> *Vivemos numa era em que os acontecimentos já não se sucedem: colidem. Entre a geopolítica em tensão e a tecnologia em aceleração, o mundo parece cada vez mais uma equação sem solução estável.*

Ao longo da semana, o noticiário internacional voltou a mostrar um planeta instável, nervoso e fragmentado, enquanto a frente tecnológica prossegue, quase indiferente ao ruído político, na sua marcha de transformação acelerada. O contraste entre a lentidão das decisões humanas e a velocidade das mutações técnicas torna-se cada vez mais evidente.

admitted to the hospital following a heart attack.

- **Pope says he has 'no fear' of Trump after scathing criticism** — The US president accuses Leo of being "weak on crime and terrible for foreign policy".
- **Ghanaian footballer killed after armed attackers open fire at team bus** — The team was returning from a fixture when they were attacked by "masked men wielding guns and assault rifles", officials say.
- **What is a naval blockade and how would it work in Strait of Hormuz?** — Donald Trump says that the US is going to start blockading the Strait of Hormuz. What does this mean in practice?
- **Crowds gather ahead of Bollywood legend Asha Bhosle's funeral** — The singer, who died at the age of 92, will be cremated with full state honours on Monday.
- **Katya Adler: Jubilation in Budapest will be felt in Europe but leaves Moscow cold** — European leaders share Hungarians' joy over the ousting of Vladimir Putin's EU ally, writes the BBC's Europe editor.

Facebook post and says his administration will be 'well functioning and compassionate'This is a moment of history for Hungary and Hungarians. And the outcome is momentous for the rest of Eur

- **Middle East crisis live: US blockade of Iran's ports to begin today as Pope Leo says he has 'no intention to debate' Trump over war** — Centcom says blockade to begin at 10am ET; pontiff says he will not respond to US president's scathing attackFull report: Trump says US will blockade strait of Hormuz after Iran peace talks failPlaneloads of negotiators

🤖 Tecnologia

- **Shock from Iran war has Trump's vision for US energy dominance flailing** — Record domestic oil and gas production hasn't saved US drivers from price spikes.
- **AI models are terrible at betting on soccer—especially xAI Grok** — Systems from Google, OpenAI, Anthropic, and xAI struggle with the Premier League.

Four astronauts are back home after a daring ride around the Moon — "I can't imagine a better crew that just completed a perfect mission right now."

- **Californians sue over AI tool that records doctor visits** — Plaintiffs say transcription tool processed confidential chats offsite.
- **New paper argues history, not mantle plume, powers Yellowstone** — A now-vanished plate under North America may open the crust below Yellowstone.
- **Railway secures $100 million to challenge AWS with AI-native cloud infrastructure** — Railway, a San Francisco-based cloud platform that has quietly amassed two million developers without spending a dollar on marketing, announced Thursday that it raised $100 million in a Series B funding round, as surging
- **Claude Code costs up to $200 a month. Goose does the same thing for free.** — The artificial intelligence coding revolution comes with a catch: it's expensive.Claude Code, Anthropic's terminal-based AI agent that can write, debug, and deploy code autonomously, has captured the imaginatio

Tomados em conjunto, estes sinais sugerem uma civilização onde a infraestrutura técnica se torna cada vez mais
